WHAT MAKES IT UNIQUE?

More than the initials of her name, this collection portrays the multicultural origins of the artist in a sober writing summarizing the countries she knows and loves most.

The unmistakable lines of this refined jewellery immediately speak to us of the countries and cities that crisscross our lives and which hold such intimate value for us.

Origin: singapore, Belgium

Material: Silver, stainless steel or in shining, matt or brushed precious metal

ABOUT THE DESIGNER

Singaporean born artist Jasbir Sandhu's work shows a formal and meaningful interpretation of images of countries written in contemporary calligraphy (association of the significance and written forms).

Her art work was noticed by the interior architect Jean-Louis De Ridder of AXIA, and since then they collaborated to launch a contemporary jewellery collection named J*S Just So.
